

## Music listed by type [genre], artist & CD information as of 05/25/21

The sheets listed below will have a heading such as 'Contemporary Country'. That listing will have some of the CD's that I have downloaded or recently redownloaded. The titles of the CD's will be listed under the Artist. Some artists might be qualified to be listed under more than one type [genre], but I will only list under one type [genre].

This is a project in progress, so as I get more CD's downloaded or redownloaded, these sheets will be updated.
