

I will be posting here, any dance that is open to the public, that I will be the DJ for. I will also be posting here, dance information from any other dance that I support.

Karaoke information

I have 1.72TB of ZIP file karaoke.

The karaoke program that I use, can use Zip files and also be used with the customer's CD's. I also buy karaoke CD's, and I am making a song list of those CD's. The program will save the songs [those that are in my zip files], and the settings that the songs were sang in.
